Company Profile

About Us

DD TECH began its journey in 2018 under the name DD Enterprises and has since evolved into a trusted name in the construction industry. With a focus on quality, reliability, and innovation, we have rebranded as DD TECH to reflect our growing capabilities and vision.

We have been involved, over these year into major Residential, Commercial, Industrial and Infra structural projects, which provides us with very rich and unique experience and expertise of the domain.

DD TECH's approach and commitment to our clients enables us to be predictable. We have always put quality and customer satisfaction as our top priority thus ensuring that our clients receive value, quality and certainty. With our exceptional track record in terms of execution, we are well placed totap the growing infrastructure opportunities in India by leveraging our superior technology.

Our Vision

To become a leading and trusted manufacturer of rebar couplers and construction solutions by delivering high-quality products and reliable services.

Our Mission

To provide innovative and cost-effective construction solutions through superior manufacturing, on-site services, and a commitment to quality, safety, and excellence.

Our Services

At DD TECH, we offer a comprehensive range of services to support the construction industry with quality and efficiency:

Rebar Coupler Manufacturing

We manufacture all types of rebar couplers, ensuring high strength, precision, and compliance with industry standards.

Transit Mixers (TM)

We are provide TM Vehicles on rent for RMC plants, ensuring smooth and timely delivery of materials.

On-Site Threading Services

We provide rebar threading serv - ices at construction sites, helping clients save time and ensure pro- per installation without delays.

Technical Support & Guidance

Our team provides expert support and consultation for selecting the right couplers and installation methods.

Forging & Machining

We offer forging and machining solutions for rebar couplers, ensuring durability, accuracy, and consistent quality.

Products Specifications

DD TECH Couplers are Parallel Threaded Mechanical Splicing systems (Mechanical coupler) designed and manufactured for the connection of concrete reinforcement bars ranging from a diameter of 16mm to 40mm. DD TECH Couplers have been manufactured in compliance with IS 16172, ACI 318, BS 8110, ASME Sec Ill Div
Also, they are designed and manufactured following the quality management system of ISO 9001.

Our Products

1. Standard (Parallel Threaded) Coupler

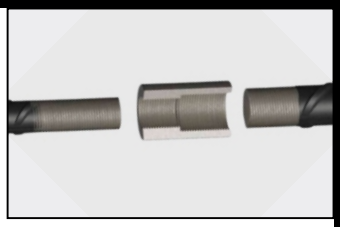
Description: Used to connect two rebars of the same diameter with parallel threads.

Specifications:

- **Material:** High-strength carbon steel
- **Thread Type:** ISO Metric / Parallel Thread
- **Sizes:** 12mm to 40mm (custom sizes available)
- **Tensile Strength:** ≥ 125% of rebar yield strength
- **Surface Finish:** Natural / Zinc Plated

2. Reducer Coupler

Description: Connects rebars of different diameters.



Specifications:

- **Material:** High-grade steel
- **Thread Type:** Dual size internal threads
- **Sizes:** e.g., 25x20mm, 32x25mm, 40x32mm
- **Tensile Strength:** Meets or exceeds parent bar strength
- **Application:** Column-to-slab or beam connections

3. Position Coupler (Adjustable Coupler)

Description: Used when one bar cannot be rotated; allows adjustment during installation.

Specifications:

- **Material:** Alloy steel
- **Thread Type:** Parallel thread with locking arrangement
- **Sizes:** 16mm to 40mm
- **Feature:** Adjustable length / no bar rotation required
- **Application:** Retrofit or congested areas

4. MBT Coupler (Mechanical Bolt Type)

Description: Connect reinforcing bars without thread cutting or bar rotation.

Specifications:

- **Material:** High-tensile carbon steel (Grade 8.8 or 10.9) or stainless steel (304/316) for corrosive environments.
- **Mechanism:** Two internal serrated saddles and multiple locks hear bolts.
- **Size:** 16mm to 40mm
- **Applications:** Ideal for repair work, column splicing, piling, and bridge applications where bars are fixed.

Identification

DD TECH Couplers marked with following ,to enable traceability of the raw materials & production batch reference.

Brand name: DD
Month year: 0326
Diameter: 32mm
Raw material H no: 11-21-3B

DD0326-32-11-21-3B

Our Clients

Panchshil | Godrej Properties | Provenance Land | K Raheja Corp | Kalpa-Taru | Solitaire | Aurus | Mapletree Property Pvt. Ltd.

Precision in Every Coupler
Excellence in Every Project
